GREENFIELD-CENTRAL COMMUNITY SCHOOL CORPORATION REQUEST AND AUTHORIZATION TO ADMINISTER PRESCRIPTION MEDICATION 2017-2018 SCHOOL YEAR

All spaces must be complete before medication will be administered at school. This is a two-page form.

Dear Parent/Legal Guardian and Health Care Provider:

- You and your child's prescribing health care provider must complete this form in its entirety. Each medication requires its own form to be completed.
- This form is valid for the current school year only.
- A new form is required for any changes in medication, dose, or administration time.
- The health assistant must be notified in writing when a medication is to be discontinued.
- All medication must be brought to school by a parent/guardian, or an adult, age 18 and over, who is on the student's emergency contact list in PowerSchool.
- Medication brought to school by a student <u>will not be given</u> and a parent/guardian must come to the school to retrieve the medication.
- Up to a 60 day supply of medication will be stored in the clinic. The adult that brings the medication to school will count in medication with clinic personnel. Medication should be brought to the clinic during regular school hours.
- Medication containers must be labeled by the pharmacy with the student's name, health care provider's name, name of medication, dosage, route (i.e., by mouth), conditions for storage, prescription date and expiration date. *The information on the prescription label must match the health care provider-supplied documentation provided on this form.*
- Clinic personnel will discard empty prescription bottles. The prescription label will be removed and shredded by clinic personnel.
- Medication will not be returned home with students. A parent/guardian or an adult, age 18 and over, who is on the student's emergency contact list in PowerSchool, must pick up the medication from the clinic
- Medication not picked up by the end of the day on the last day of school will be destroyed. Expired medications will also be destroyed. In the event a medication is discontinued, the medication must be picked up by the parent/guardian within five school days or the medication will be destroyed.
- Personnel administering medication are trained on safe medication administration practices on an annual basis. These trained but unlicensed personnel will most likely give medication. A list of trained personnel is on file with the corporation nurse.
- Medications can be administered up to 60 minutes prior to or 60 minutes after the scheduled administration time prescribed by the health care provider. Health assistants will make a good faith effort to administer medication as scheduled. Should your student arrive at the clinic outside of this time period, the dose will not be given. Some families find that a wristwatch with an alarm helps remind students to go to the clinic for their medication.
- Your student may be subject to video surveillance while in the clinic receiving medication.
- The parent/guardian should provide any consumables necessary for medication administration (disposable cups, syringes, spoons, applesauce, pudding, snacks, etc.).
- Medication stored in the clinic is only available to the student during the regular school day.
- In the event of a two-hour delay, medications will be given at the prescribed time. Doses will not

be rescheduled.
